## WHY TEKNIK?

- ◆ We are able to look for alternative supply sources for big quantities, responding to emergencies
- ◆ We create and maintain good relationships with suppliers
- ◆ We guarantee compliance with the appropriate protocols and general policies of our customers
- ◆ We act according to your priority
- ◆ We are linked to Grupo Clover, this way, with Teknik you immediately acquire an infrastructure network to obtain what you need. Clover is recognized in the market for having the capacity, resources and commitment to share the risk of managing important wave picks or decreases in the logistic requirements of our customers

## MAIN PRODUCTS

### Supply

We offer you the easiest way to supply everything your company needs to operate. The most important thing for us is added value, but we can work according to your priorities: speed, cost, financing and/or specifications.

### Supply Chain Management

You can trust us transporting industrial quantities from one place to another one.

TEKNIK supervises merchandise movement from supplier's facilities to your company's door.

## MISSION AND VISION

We are focused on processes improvement and competitiveness of your company under the following guidelines:

**Mission:** To promote company's growth and globalization through four key elements: excellent customer service, trust, innovation, and a procurement and logistics integral service fulfilling our customers' needs.

**Vision:** Our vision in TEKNIK is to provide efficient, effective, and innovating solutions to our customers, establishing personalized service.
